

Range: Santé Standard

Ref: 75634 - SINGLE HOLE WITH FIXED CAST SPOUT H 78.5 MM- WITH DRAINAGE- NF VERSION

Benefits of the product

- Certified with the French Standard NF.
- Solid lever for easy maintenance
- Ceramic cartridge: temperature limiter with 7 settings, dual flow rates, and maximum flow rate adjustment
- Flow rate between 4 and 6 L/min at 3 bar—in accordance with the NF "Medical Environment" French standard; possible flow modification, in case of disassembly of the limiters, by adjusting screw between 4 and 20 L / min.
- Water savings, safe use, and controlled water consumption.

Model

- Single-hole washbasin mixer without handwash basin drain
- Solid lever
- M24 x 1 aerator made of Hostaform®, a limescale-resistant material. Limits bacterial growth, prevents water retention and the buildup of impurities
- Ø 40 ceramic cartridge: temperature limiter with 7 settings, dual flow rates, and maximum flow rate adjustment.
- Faucet comes factory-installed with an aerator.

Flow Rate

- Flow rate between 4 and 6 L/min at 3 bar – compliant with the NF "Medical Environment" standard
- Flow rate can be adjusted—if the limiters are removed—using an adjustment screw to set a flow rate between 4 and 20 L/min

Dimensions

- Fixed high cast spout, length 110 mm.
- Height under spout: 78.5 mm.

Materials

- Body, spout, and control mechanism made of polished chrome-plated brass.

Connections

- Hoses with M10x1 stainless steel SPEX braided sheath, G 3/8 captive nut, Lg 450 mm.
- Mounting reinforced with an M8 rod.

Regulations

- NF certified
- ECAU classification: E1 C1 A2 U3

Warranty

- 10-year warranty against any manufacturing defect
